

Ezyhealth Asia Pacific Ltd.
Leading Healthcare into the New Economy

Incorporated in August 1999, Ezyhealth Asia Pacific Ltd. provides healthcare information technology (HCIT) solutions and connectivity services to the healthcare sector. Their key focus is to build the connectivity applications and infrastructure for the exchange of transaction information from one computer system to another through the Internet, thereby linking up the key players in the healthcare sector (doctors, hospitals, patients, insurance companies, laboratories, etc.) to bring about a seamless and efficient management of healthcare services.
